Seventh-day Adventist Educational Ministry

Winter Haven Adventist Academy is part of the Seventh-day Adventist church's North America system of more than 1,000 elementary and secondary schools and 15 colleges and universities. The unique philosophy of Adventist Christian education is based on the Scriptures.

The primary aims of Seventh-day Adventist education are to provide high quality education, give opportunity for students to accept Christ as their Savior, thus allowing the Holy Spirit to transform their lives and strengthen students' gifts and abilities to fulfill the commission of preaching the gospel to all the world.

The education program is predicated on the belief that each student is unique and of inestimable value, ultimately building on the importance of the development of the whole person.
